

Pass Over Us

Verse 1

Night falls heavy on the desert sand

A shadow moving through the land

Every house waiting in the dark

Every soul holding to the mark

But mercy stood on every frame

A crimson promise in His name

Where the blood of the lamb was laid

The hand of death was turned away

Pre-Chorus

The covenant sign

The blood applied

The night will see

Who stands inside

Chorus

Pass over us

Pass over us

Covered in the blood of the Lamb

Pass over us

Pass over us

Your covenant people stand

Death must flee

The Lamb has come

Pass over us

Pass over us

Verse 2

Through every age the story burns

The feast returns, the remnant learns

The Lamb of God on Zion's hill

The Father's promise standing still

Son of David, lifted high

The spotless Lamb was crucified

By His blood the tribes are called

By His voice the lost are drawn

Pre-Chorus

The covenant stands

The blood remains

The door is marked

In Yeshua's name

Chorus

Pass over us

Pass over us

Covered in the blood of the Lamb

Pass over us

Pass over us

Your covenant people stand

Death must flee

The Lamb has come

Pass over us

Pass over us

Bridge (chanting, stomps, gang vocals)

Mark the door

Mark the door

The blood is speaking

Evermore

Blow the shofar

Sound the cry

The Lion of Judah

Is drawing nigh

Mark the door

Lift the flame

Salvation comes

In Yeshua's name

Final Chorus

Pass over us

Pass over us

Covered in the blood of the Lamb

Pass over us

Pass over us

Your covenant people stand

The King will reign

The Lamb has won

Pass over us

Pass over us

Outro

The blood still speaks

The door is sealed

The Lamb of God

Our shield
