Verse 1

People talking peace and safety

While the whole world falls in line

Silver tongues sell false salvation

Truth exchanged for compromise

The final image calls for worship

The beast upon the hands of men

Names written through allegiance

But we bear your name instead

Pre-Chorus

Write your Torah on our foreheads

Bind your ways upon our hands

Not the mark of lawless worship

We are sealed by your commands

Chorus

One mark calls the world to bow down

One seal bears the Father's name

One path kneels before the image

One walks faithful through the flames

They will trade the truth for comfort

We will bear the Father's name

They will bow before the image

We will walk the narrow way

Verse 2

Some will trade the truth for comfort

Some will bow to buy and sell

Some will take the mark in worship

Some refuse the beast as well

Your words still mark your people

Written in the way we live

Every feast and every Sabbath

Bears the witness of your name

Pre-Chorus

Write your Torah on our foreheads

Bind your ways upon our hands

We will not receive another name

We are sealed by your commands

Chorus

One mark calls the world to bow down

One seal bears the Father's name

One path kneels before the image

One walks faithful through the flames

They will trade the truth for comfort

We will bear the Father's name

They will bow before the image

We will walk the narrow way

(Choir)

Woah

Bridge

Foreheads marked

Hands lifted

Every soul will choose a throne

By the beast

Or by the Lamb

Every soul will choose its hand

Seal us now

Keep us faithful

Through the trial and the flame

We will bear

No other mark

But the name above all names

Final Chorus

One mark calls the world to bow down

One seal bears the Father’s name

One path kneels before the image

One walks faithful through the flames

They will trade the truth for comfort

We will bear the Father’s name

They will bow before the image

We will walk the narrow way

Outro

Your name upon our foreheads

Your ways upon our hands

Sealed within the fire

We bow before the Lamb
